

FORCE5 2.0™

Voice & 4G LTE Signal Booster with
Built-in Sentry Remote Monitoring

- Boosts signal for voice, text and 4G LTE data for all major North American carriers
- Reduces dropped and missed calls and provides reliable 4G data for 100+ simultaneous users
- Improves signal coverage inside large buildings — 25,000 sq ft in typical conditions / up to 100,000 sq ft in ideal conditions*
- Built-in Sentry remote monitoring system allows users to adjust to optimize performance during installation and while located off-site

**with open areas inside and strong received signal*
